

## THOMAS' PISTOLS FOUND ON FRONT SEAT OF CAR

Alleged That No Weapon Was Found Near Body of Man Killed by Dry Officers.

(Special to The Times-Dispatch.)  
DANVILLE, July 17.—The State authorities, through Commonwealth's Attorney Joseph Taylor, of Henry County, this afternoon took steps to bind over to court the four officers who are involved in the killing of Thomas, of Patrick County, shot to death when officers were seizing his liquor laden car on the Henry P.C.

The most important development today was the statement made by Deputy Sheriff Stuart A. Warrick, who was sent to Danville to question Federal Officers J. J. Wood and K. Drummond, Jr., and who says that the two men admitted to him that they had taken two pistols out of the car, both were fully loaded. Neither of them had been shot and both were wedged down between the cushions on the front seat. The story of the officers is that Thomas fired at them first. No pistol was discovered lying near the dead body of Thomas in the car.

The funeral of the slain man was held at Endicott in Patrick County yesterday and was largely attended. The county sheriff attended the obsequies, said that the shooting has provoked some little resentment.

It is a well known fact that Patrick County court, who was here today, said this morning that he knew Thomas well and that he was a quiet citizen. He married the daughter of one of the most prominent and substantial citizens of his neighborhood and was regarded as a good man.

In other quarters no denial is made that Thomas was a blockader, but was by no means a desperate character or king of the roving band as he has been characterized by one of the officers involved in the shooting.

## BOY IS KNOCKED OFF CAR AND SERIOUSLY HURT

Charles E. Loving Is Struck by an Automobile Parked in Q Street.

Charles E. Loving, aged 12, son of Charles B. Loving, 321 North Twenty-third Street, was knocked from an automobile and injured seriously last night about 8 o'clock, and seriously injured. The youth was said to have been riding on the running board of the car and in leaning out too far struck an automobile parked on the side of Q Street.

First aid to the injured boy was rendered by the Virginia Hospital ambulance and he was taken home. He was later transferred to Grace Hospital. The hospital authorities state that he is seriously hurt about the shoulder, collar bone broken, and cut about the head. They assert that his injuries, though serious, will not prove fatal.

## JOHN L. THOMPSON, VETERAN OF WAR OF 1861-65, IS DEAD

Heaver Dam Man Lost Arm at Chancellorsville, Where Stonewall Jackson Was Killed.

John L. Thompson, a veteran of the War Between the States, died July 11 at Beaver Dam, aged 81 years. He was a member of Woodford's Battery of artillery and lost his right arm at the battle of Chancellorsville, where Stonewall Jackson was killed. After the war, he entered business with only one arm, "making his way" until able to purchase a home, and continuing the mercantile business there for forty years, until his death from a stroke of paralysis on July 11.

Mr. Thompson married Miss S. Blanche McGee in 1868. She survives him, together with four children, three sons and one daughter.

## SIXTH MAN CHARGED AS WELCH SLAYER GIVES UP

Alabamans Accused of Murder May Be Removed to Another Jail for Safe Keeping.

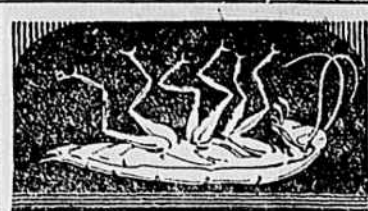

(By Associated Press.)  
LIVERMORE, ALA., July 17.—L. E. Sexton, the sixth man wanted in connection with the murder of John L. Welch, which occurred late Thursday night, surrendered himself to Sheriff R. J. Jones this morning and with the five who were arrested yesterday is being held in the county jail pending the action of the circuit solicitor, as to whether the men shall be removed to another jail for safe keeping.

An unusually large crowd has been in town today, gathering from all parts of the county, and while there has been a great deal of talk in which summary execution without benefit of trial has marked the street corner conversations, the crowd have been orderly and at a late hour today it was not believed a move would be made in this direction. The county jail is heavily guarded.

No date has been set for a preliminary hearing of the six men, who are held on a general charge of murder, and the sheriff's forces are continuing their investigation with a probable view of implicating others in the affair.

After conferences with officials connected with the investigation, Sheriff Jones was instructed from the Governor's office today to make application on Circuit Judge Gamble for an order to remove the prisoners from the county jail.

Sheriff Jones stated tonight that he would not attempt to remove the men until Sunday, as he would not be able to get in communication with Judge Gamble before that time. The removal was ordered as a precautionary measure, although no serious trouble was apprehended by the sheriff. The men will be brought to the Montgomery County jail, it was said.

## Kills 'em All

Kill roaches, bed bugs, moths and germs in the easiest, quickest, cleanest, surest way—by spraying Preventol. Insects spread disease—they are carriers of death from filth to your food, to your table, to your mouth. Destroy them with Preventol—protect your comfort, health and life.

Spray Preventol in your kitchen and pantry to kill the hideous roaches and their sickening odor. Spray it under and around the sink, along the drainboard, over and behind the shelves and in the cracks and crevices of woodwork and plaster. Preventol's vapor will do no harm—except to insects. These it drives out to die in sight. It kills their eggs—prevents their hatching.

You need not be bothered by blood-sucking bed bugs if you spray Preventol over the mattress and bedstead. Spray it into the tufts, under the bindings, in every spot where these pests may be hiding. They cannot hide from Preventol. It gets 'em quickly.

Get rid of flies and mosquitoes, too, by spraying Preventol. They will flee from its vapor. Keep them out by spraying screens and woodwork about doors and windows. Spray Preventol over garbage and water to kill the eggs of flies and mosquitoes.

The Preventol Method of extermination is used in leading hotels, restaurants, hospitals and public institutions. You can rely on it.
